- Step 1: Dataset Selection
- Step 2: Column Selection & Preprocessing
- Step 3: Model Configuration
- Step 4: Training Execution
- Step 5: Results Analysis

Current KNN Configuration:

K Value

9

Weights

uniform

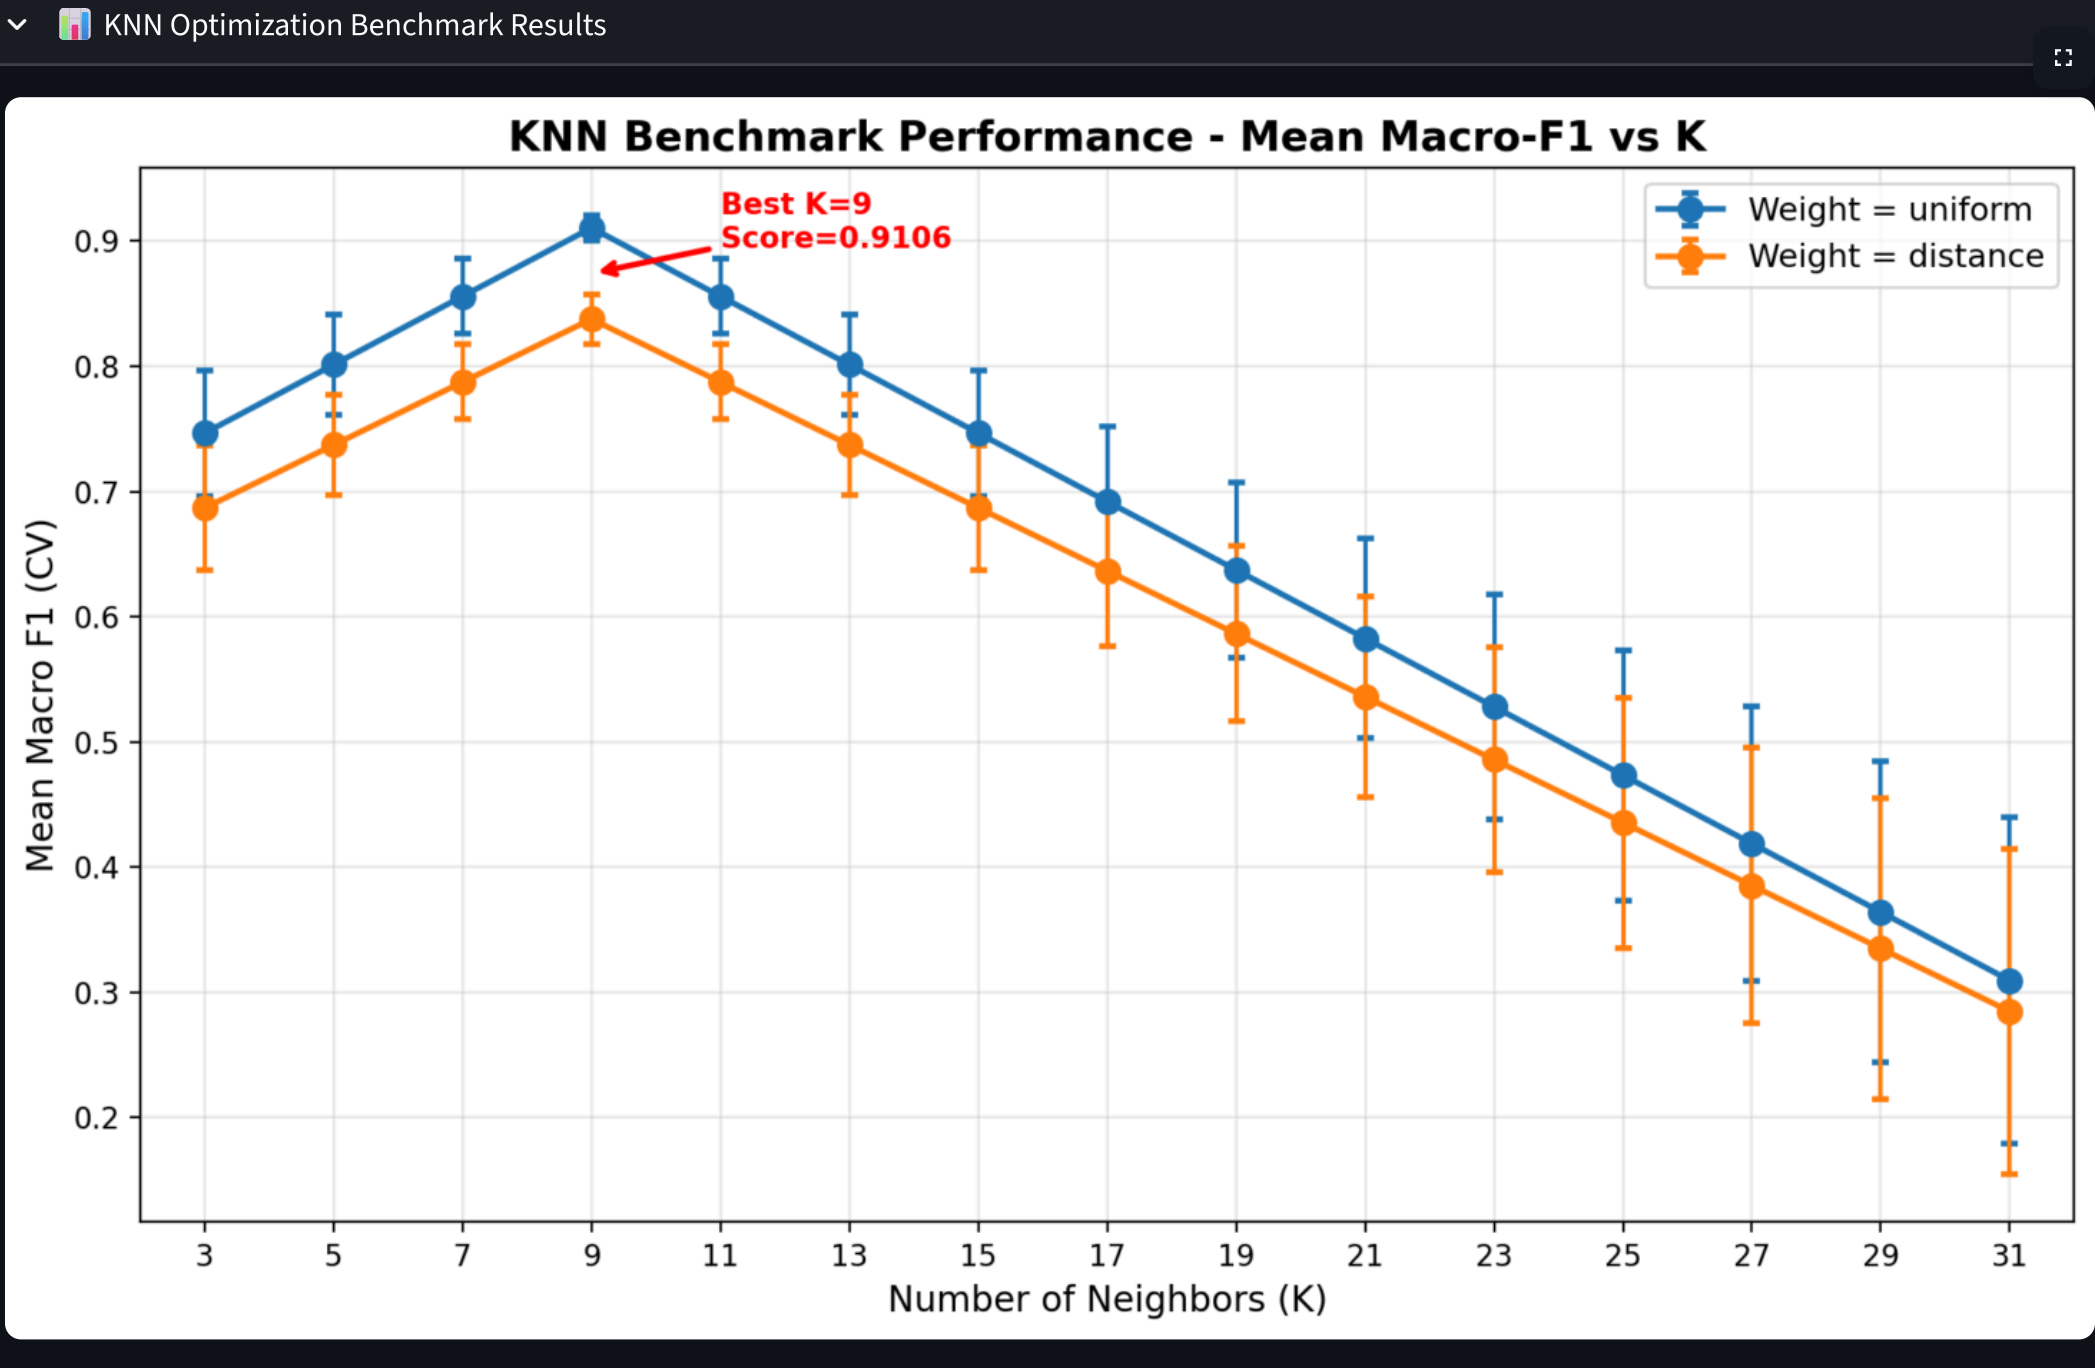

Metric

cosine

Best Score

0.9106

Clear KNN Config

Text Vectorization Methods:

- ☒

☒ Bag of Words (BoW) - Fast, interpretable
- ☒

☒ Word Embeddings - Semantic understanding, slower
- ☒

☒ TF-IDF - Better than BoW, handles rare words

Ensemble Learning Configuration:

- ☒

☒ Enable Ensemble Learning
- Final Estimator:

voting
